TO AUSTRALIA AND
THE ASIA-PACIFIC

CITY OF YARRA HERITAGE STRATEGY

THE PROJECT

Extent Heritage led the preparation of the municipality's new Heritage Strategy, which involved substantial consultation with council officers, stakeholder groups and the wider community over a period of one year. The former strategy's effectiveness was reviewed and we utilised its successful elements and introduced new components that allowed Council to clearly understand its KPIs over a period of time.

SERVICES

- Built + Architectural Services
- Consultation
- Heritage Advisory Services
- Policy Development
- Significance Assessment

VALUE UNLOCKED

The revised Heritage Strategy was prepared in line with Heritage Victoria's guideline document 'Municipal Heritage Strategies: Guide for Councils'. It satisfies the themes of knowing, protecting, promoting and supporting. The document equips the council with an efficient process for identifying and carrying out priority conservation works for its heritage assets, while disseminating information, engaging local communities and celebrating related achievements.
